E-ACT

Delivering Educational Excellence

E-ACT ACADEMIES ACROSS ENGLAND HAVE **ONE** AIM

That is to provide an excellent education for students, giving them the best possible start in life.

To do this all our academies focus on fundamental areas:

- Exceptional teaching
 - First class facilities
 - Good discipline
 - High expectations and high standards for all students
 - Strong academic and vocational learning opportunities
 - A rounded education designed to bring out the best in all.
-

EXCEPTIONAL TEACHING

Inspirational teaching is the essential foundation for all high-performing schools and is key to getting the best out of our students.

We value great teaching. And great teachers expect high standards and help identify the best way to build and develop each young person's confidence and capability.

In E-ACT academies, teachers focus on what is called 'personalised learning'. In other words making sure that there is a strong plan and focus on each individual young person. Every child is different, but every child matters, and we ensure that all our students receive attention and support throughout their time at our academies.

FIRST CLASS FACILITIES

Each E-ACT academy will be located in modern new, state-of-the-art buildings. Our first new academy building opened in 2009, the Trent Valley Academy in Gainsborough.

Most of our other academies are now involved in multi-million pound programmes to build new schools fit for the 21st Century.

Our academies are committed to providing the best range of facilities available in state schools.

Our investment in the latest technology ensures that students have access to the best facilities to prepare them for further and higher education – and the world of work.

GOOD DISCIPLINE

To ensure students make the most of their time at our academies we expect high standards of behaviour.

Good discipline goes hand-in-hand with success and achievement.

E-ACT academies have a strict but fair approach to uniform and standards of behaviour. They help make excellent learning environments for all students.

We welcome the support of parents who work with us to help make sure we have good discipline in our academies.

A ROUNDED EDUCATION DESIGNED TO BRING OUT THE BEST IN ALL

Students have one opportunity to make the most of their education and our academies ensure that they receive all the help they need to develop and excel.

As well as ensuring they have a good grounding in core subjects like English and Maths, we want all students to experience the full range of cultural and sporting activities. We look to develop and encourage all students to explore their interests and to find out more about the world they live in as well as their local environment.

PREPARING YOUR CHILDREN FOR THE FUTURE

E-ACT academies thrive on the skills of teachers and the enthusiasm and potential of students.

We believe that this investment in excellent education, in excellent facilities, provides the best environment for success.

HIGH EXPECTATIONS AND HIGH STANDARDS FOR ALL STUDENTS

Our students come from all backgrounds and many different circumstances, but when they are part of our academy they receive equal support and treatment.

In turn we have high expectations for all our students and we encourage them to expand their horizons and aim higher.

STRONG ACADEMIC AND VOCATIONAL LEARNING OPPORTUNITIES

We want our students to receive a good all round education – and we encourage them to do the best they can. However, we will help them to excel in those areas or subjects where they show great potential.

We also recognise that an academic route is not always the ideal option for every student. So whether the focus is on sport, the arts, engineering or other vocational opportunities we tailor education to the needs of each student.
