

Your Academy

Information for students

E-ACT

Investing in your future

As a student at an E-ACT academy your education is our top priority. As well as providing excellent teaching we will open up many opportunities for you to enjoy - including sport, art, music and many great facilities. You will be joining thousands of students in a family of academies across England. We pledge to give you the best chances to succeed, and prepare for higher education, work and life.

Welcome

First Facilities

To make our academies the best for you we focus on:

- > Exceptional teaching
- > First class facilities
- > Good discipline
- > High expectations and high standards
- > The best learning opportunities
- > A rounded education

This all amounts to making sure you get the best education and the best start in life.

Exceptional Teaching >

Great teaching – and great teachers – are the backbone of our academies. And great teachers expect high standards and help find the best way for you to build and develop your confidence and capability.

Your teachers focus on what is called 'personalised learning'. In other words making sure that there is a strong plan and focus on you as an individual young person.

Everyone is different, but everyone matters, and we make sure that everyone receives the attention and support they need throughout their time at the academy.

Academies often start in former school buildings, but each E-ACT academy has either moved into, or is preparing for, modern new, state-of-the-art buildings. Our first new academy building opened in 2009, in Gainsborough, Lincolnshire.

> Millions of pounds are being spent to build new academies with amazing facilities, fit for the 21st Century.

> That means the latest technology

> Great sports and leisure facilities

> And brilliant classrooms, restaurants and shops.

Great Class Facilities >

Good discipline

We want you to get the most out of your academy.

We want you to succeed and be safe.

So we expect high standards of behaviour.

Good discipline goes hand in hand with success and achievement.

We have a strict but fair approach to uniform and standards of behaviour.

High expectations and high standards:

All our students come from many backgrounds and many different circumstances.
When you join the academy you will always be treated equally.

A young woman with dark hair, wearing a purple school uniform, is smiling and looking towards another student whose back is partially visible. They appear to be in a school setting, possibly a hallway or classroom. The background is slightly blurred, showing other people and what might be a display board.

The best learning opportunities!

As a student you will receive a good all round education. But we will help you to excel in those areas or subjects where you show real interest and great potential. We know that lots of academic study is not the ideal option for everyone. So whether the focus is on sport, the arts, engineering or other opportunities we will tailor your education to your needs.

A rounded education - designed to bring out the best in you

You have one great opportunity to make the most of your education. Our academies will give you all the help you need to develop and excel. We want you to do really well in subjects like English and Maths. But we also want you to enjoy lots of other experiences – whether it's the theatre or on the sports field or learning a musical instrument. We want you to explore your ideas and your interests and to find out more about the world you live in.
